AI and Student Autonomy

What's the course about?

Explore the empowerment of AI to foster student autonomy and enhance self-directed learning. This course focuses on using Microsoft's AI tools and Learning Accelerators to empower and personalize learning. Empower your students with Microsoft Copilot, Speaker Coach, Search Coach, Math Solver, and Reading Progress.

Skills and Knowledge Acquired

- Use AI to secure and test understanding and develop transfer of learning.
- Implement AI as an assistive tool to support diverse learning needs.
- Encourage self-assessment and comparative analysis using AI

Course Information

- Gain access to a library of resources and tutorials.
- Available as a 2 hour, half-day or full day course.
- Live online or in-person training options.
- Training by official Microsoft Global Training Partner trainers and consultants.
- Certificate of Attendance provided.

Apps Explored
