

CS1

Frameworks for Designing Learning

What's the course about?

Adopt Microsoft as a cornerstone in your instructional design by applying learning frameworks that support diverse educational needs. In this course, you will learn essential theory and practical applications for how to successfully integrate sound pedagogical principles when planning and designing inclusive educational materials and experiences.

Skills and Knowledge Acquired

- Implement learning frameworks with Microsoft M365
- Structure learning experiences using the Microsoft Ecosystem
- Design inclusive materials that support a range of learners.
- Explore the full range of Microsoft's capabilities and features.

Course Information

- Gain access to a library of resources and tutorials.
- Available as a 2 hour, half-day or full day course.
- Live online or in-person training options.
- Training by official Microsoft Global Training Partner trainers and consultants.
- Certificate of Attendance provided.

Apps Explored

This course can be used in these Learning Designer Pro certification routes
