Learning DESIGNER PRO

CIN12 Data Stories and Visualization

What's the course about?

Transforming data into compelling stories using is a powerful and creative way to illustrate and interpret information. Learn how to teach students to convey complex data clearly with charts and graphs that highlight key insights.   In doing so, students can acquire vital analytical skills as they formulate meaningful visual narratives from raw data.

Skills and Knowledge Acquired

- Visualize data with Canva's and Excel's graph-making capabilities.
- Use Copilot to support interpretation of data.
- Encourage data-driven storytelling for impactful presentations.
- Enhance data literacy.

Course Information

- Gain access to a library of resources and tutorials.
- Available as a 2 hour, half-day or full day course.
- Live online or in-person training options.
- Training by official Microsoft Global Training Partner trainers and consultants.
- Certificate of Attendance provided.
