

CS4 Enabling Independent Learning

What's the course about?

Learn how students can leverage Microsoft's suite of tools to create their own learning materials, reflect on their individual learning journeys, and self-direct their course through their studies. In this course, you'll learn how Microsoft supports learning environments where students can thrive and progress as confident learners.

Skills and Knowledge Acquired

- Create self-paced learning modules.
- Encourage student-generated content to aid independent study.
- Adapt resources to support differentiated instruction.
- Build student ownership over the learning process.

Course Information

- Gain access to a library of resources and tutorials.
- Available as a 2 hour, half-day or full day course.
- Live online or in-person training options.
- Training by official Microsoft Global Training Partner trainers and consultants.
- Certificate of Attendance provided.
